Computer Science student focused on Data Analytics and Data Science, with hands-on experience in data cleaning, statistical modeling, SQL analytics, and predictive modeling using R, Python, and SQL.

Education

UNIVERSITY OF UTAH

Salt Lake City, UT

Bachelor of Science in Computer Science – University of Utah, John & Marcia Price College of Engineering

Minor in Financial Technology – Dave Eccles School of Business

Certificates: Human Factors Certificate (Expected July 2027)

Skills

Data Science & Programming: Python (Pandas, NumPy), Apache Spark, SQL (MySQL, PostgreSQL), R, Excel, Jupyter Notebooks, Salesforce, SQL Server, SSMS, HTML/CSS

Data Analysis & Modeling: Logistic Regression, Exploratory Data Analysis, Data Cleaning

Administration & Outreach: Event Coordination, Alumni Relations, Front Office Support, Conflict Resolution, Team Leadership

Languages: Arabic (Fluent), English (Fluent)

Experience

Data Analytics & University Engagement Intern – COS Dean's Office

April 2026 – Present

University of Utah internship – Salt Lake City, Utah

- Engineering a Python and SQL data pipeline to aggregate and standardize siloed university data across departments and platforms, making previously fragmented institutional information accessible and usable in one place.
- Conducting targeted outreach to new and existing high school partners to expand the College of Science's recruitment pipeline, re-establishing lapsed relationships and identifying schools with strong emerging science programs.
- Coordinating events for residential student programming in partnership with Housing, overseeing planning and on-site execution across campus.

Alumni Chapter Event Intern – Data Science and Engagement

September 2025 – December 2025

University of Utah Internship – Salt Lake City, Utah

- Aided on-site coordination and engagement for Alumni Chapter events, resulting in a positive experience for university graduates and stakeholders.
- Cleaned and prepped Alumni datasets (engagement logs, donations, and demographic info) using R + Excel.
- Built logistic regression models to evaluate whether attending Alumni events increased donation likelihood, and developed predictive models and visualizations to measure philanthropic behavior and chapter impact.

AAST Management – Sponsor and Partnership Management

July 2025 – August 2025

Freelance Commission – Cairo, Egypt

- Managed communication and partnerships with event sponsors, ensuring strong professional relationships and timely coordination.
- Reached out to and secured participation from prominent influencers to promote the event and increase audience engagement.

Student Services Manager – Management and Planning

August 2023 – December 2024

UAC – Incheon, South Korea

- Acted as the primary point of contact for student and assistant inquiries, resolving issues and providing high-level customer service to a diverse campus community.
- Provided consistent leadership and clear communication to foster a positive and collaborative student environment.
- Led the planning and execution of large-scale community events, increasing student participation through targeted outreach and collaborative programming.

HALL COUNCIL – Representative & Event Organizer

August 2024 – June 2025

UAC – Incheon, South Korea

- Coordinated event planning for high-density residential facilities, managing room reservations, material preparation, and on-site registration.
- Demonstrated high agility by managing last-minute logistical shifts and technical troubleshooting during live events to maintain a seamless guest experience.
